[Theme]: Teaching and Assessing Students with learning difficulties.

[Abstract]: Providing inclusive, high-quality language education requires that teachers recognize and respond to the diverse abilities and needs of their learners, including those with specific learning difficulties (SpLDs) such as dyslexia and attention deficit hyperactivity disorder (ADHD). This workshop will explore how such difficulties may affect English language learning and assessment and will present practical strategies for supporting learners with SpLDs in the TESOL classroom. It will draw on principles of Universal Design for Learning (UDL) and highlight approaches for differentiating and adapting assessment to ensure equity and inclusion. The session will also include examples from EU-funded projects such as DYSTEF and SCALED.
